Turnkey Infrastructure Solution*

Engineering Growth . Delivering Trust .

Execution Driven . Growth Focused .

Dear Valued Clients,

It gives me immense pleasure to welcome you to LARCO INDIA PVT. LTD.

At LARCO, we are driven by a singular vision — to deliver sustainable, efficient, and innovative water treatment solutions that contribute to a better and healthier future. Water is one of the most vital resources for life and industry, and we take pride in playing a key role in preserving and optimizing its use.

With a strong foundation built on engineering excellence, industry expertise, and a commitment to quality, LARCO has steadily grown into a trusted partner for water and wastewater treatment projects across diverse sectors. Our approach combines advanced technology, skilled manpower, and turnkey project execution to meet the evolving needs of our clients.

We believe that long-term relationships are built on trust, performance, and transparency. Every project we undertake reflects our dedication to delivering reliable solutions that meet the highest standards of efficiency and sustainability.

As we move forward, our focus remains on innovation, environmental responsibility, and creating value for our clients and communities.

We sincerely thank you for your trust and look forward to building a successful partnership together.

Warm Regards,

Mr. Mainkrao M Yele
Managing Director
LARCO India Pvt Ltd

1000 + Clients till date in Private, Co-operative & Government Sector

300 + Satisfied Clients monopolizing in Sugar Sector

Where Vision Meets Execution .

Built for Today . Ready for Tomorrow .

Mission & Vision

- To provide world class solution to overcome waste water & solid waste problems that are affecting environment.
- To provide easy & affordable environmental solution
- To give immediate response to the enquiry & any complaint received from client for more betterment
- No compromise with quality of product as well as service
- Creating employment on a larger scale
- Utilizing profits of company for its growth as well as for the growth of humanity through CSR (corporate social responsibility) funding.
- Becoming the largest company on planet that works for planet.

Recognition

About team LARCO

LARCO India Pvt Ltd & LluviaTech - Rainwater Harvesting Solutions are sister concern companies & Specialized divisions formed by Crown Chemicals which is a consultant and turnkey supplier working in the field of Water Treatment Chemical Manufacturing, Water & Solid waste Management, Rain-Water Harvesting, Air Pollution Management, Infrastructure, Industrial Automation & Instrumentation.

Company began in 1998 by **Mr. Manikrao M. Yele**. He is Managing Director having Qualification M.Sc.(Organic Chemistry) from Savitribai Phule University and has totally 42 years of experience.

"Convert passion into profession keep long term view be a leader"

Mr. Manikrao M. Yele
Managing Director & CEO

He is associated with very specialized team member **Mr. Vheejay D Raul** having Qualification M.Sc.(Organic Chemistry) from Savitribai Phule University as a Technical Director has totally 46 years of experience.

"Innovate to make an impact prefer open & honest communication"

Mr. Vheejay D Raul
Technical Director

He is associated with very specialized team member **Mr. Vijay Nikate** having hold over total team handling & precessive training to whole team, vendor appointment working as Administrative Director from the grass root of the company beginning back in 1998.

"Have relentless optimism do right thing first time"

Mr. Vijay Nikate
Administrative Director

An execution-focused strategist known for transforming vision into measurable results. Backed by 15+ years of project management expertise, he leads business expansion, strategic alliances, and operational excellence across diverse infrastrure & environmental domains.
Dr. Kounal M Yele

"Built on Integrity Proven through Execution"

Dr. Kounal M Yele
Business & Strategic Affairs Director

Our Group of Companies

water

operate optimize outperform

Uninterrupted **Water.** Uncompromised Performance

Delivering end-to-end AMC, Manning & Maintenance solutions for water and wastewater treatment systems — ensuring continuous plant performance, regulatory compliance, and operational excellence.

From RO, ETP, STP, DM, UF to complete turnkey plants, every system is managed by expert professionals with precision-driven maintenance strategies and real-time operational control.

Annual Maintenance Contracts (AMC)

- Preventive & predictive maintenance programs
- Scheduled inspections & performance audits
- Breakdown support with rapid response
- Spare parts management & OEM compliance
- Membrane cleaning, replacement & system optimization
- Ensures longer equipment life, reduced downtime & cost predictability

Manning Services (Skilled Workforce)

- Certified plant operators & technicians
- 24/7 shift-based manpower deployment
- Process monitoring & reporting
- Safety & compliance management
- On-site supervision & operational control

"We don't just maintain plants — we maximize performance, extend asset life, and eliminate operational risks."

"Focus on your operations . Leave Performance, Reliability & Compliance to us ."

AMC

use . recover . repeat .

Innovative water solution

Driven by a strong global commitment to research and development, the focus remains on creating advanced solutions that enhance operational performance, reduce costs, and ensure compliance with evolving regulatory and quality standards.

These solutions are designed to:

- Lower operational costs through consistent and reliable product quality
- Enhance efficiency of critical systems
- Recover and separate high-value resources
- Deliver rapid response capabilities during critical and emergency situations

LARCO's water and process treatment solutions have been successfully implemented nationwide across diverse sectors, including:

- Hydrocarbon Processing
- Chemical Industries
- Thermal Power Plants
- Food and Beverage Manufacturing
- Water Scarcity Management
- Municipal Water and Wastewater Infrastructure
- Commercial and Institutional Facilities
- Plastic Recycling Industry
- Life Sciences
- Microelectronics
- Mining and Mineral Processing
- General Manufacturing
- Pharmaceuticals
- Slaughter House
- Fish Markets

Services We Provide

Designing, Erection, Commission and total consultancy of water treatment plants.

Operation and Maintenance, Annual Maintenance Contracting of water treatment plants

Solidwaste Management Turnkey Projects & Consultancy

Turnkey Laboratory Setups ; Suagr , STP & ETP Chemicals

Delivering end-to-end Industrial and Municipal Water Treatment Solutions, combining advanced products with robust infrastructure execution. From concept to commissioning, every project is engineered to ensure efficiency, sustainability, and long-term performance – serving industries, cities, and public infrastructure with reliable water systems.

Our Range of Products

Raw Water Technologies

- Rain Water Harvesting
- Gravity Filtration System
- Water Treatment Plant
- Clarification Systems
- Demineralization Plants
- Iron Removal
- Colour Removal
- Softner
- Resin-Based CPU

Tertiary Treatment

- Degasser
- Ultrafiltration [UF Plant]
- Submerged UF
- Reverse Osmosis
- Chlorination

forged in water

**Designed to Treat.
Built to Last**

We are a leading OEM [Original Equipment Manufacturing] delivering **advanced, reliable, high-performance** equipments tailored for water & waste water treatment industry. With strong engineering expertise and a commitment to innovation, we design and manufacture reliable, cost-efficient and scalable solution that meet global standards.

Our OEM Range of Products

Screening Products

- Bar Screens
- Mechanical Screens
- Rotary Screens
- DSM Screens

Tailored Products

- Chemical Dosing Systems
- Pneumatic System
- Ozonation System
- Oil Skimmer
- Grit Removal System

Dehydration Products

- Filter Press
- Centrifuge
- Screw Press
- Decanter
- Bag Filter

Clarification Products

- Clariflocculators
- Lamella Clarifiers
- High Rate Solid Contact Clarifiers [HRSCC]
- Dissolved Air Floatation [DAF]

Fabrication Products

- Pressure Vessels
- MSEP FRP Tanks
- Digestors
- Compact Plants

Other Products

- MBBR Media
- Diffusers
- Anaerobic Media
- Tube-Settler Media
- Anaerobic Media

In-House **Design, Drafting & 3D Modelling** Analysis of Strength for various types of **Customized Fabricated Products.**

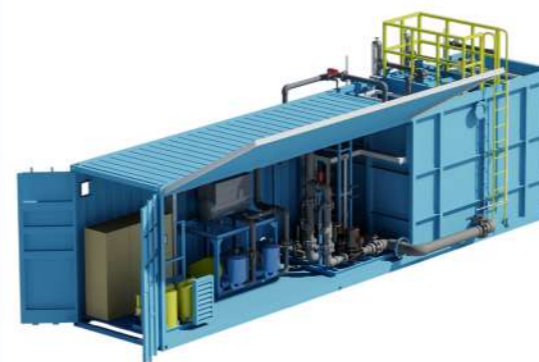

OEM

Waste Water Treatment Technologies

- Activated Sludge Process [ASP]
- Sequencing Batch Reactors [SBR]
- Leachte Treatment Plant
- Anaerobic System
- Moving Bed Biofilm Reactors [MBBR]
- Membrane Bioreactors [MBR]
- Root-Zone [Wet-Land]

Advance Water Treatment Technologies

- Ultrafiltration [UF Plant]
- Reverse Osmosis
- Ozonation
- Nano-Bubble
- Zero Liquid Discharge
- Multi Effect Evaporator

infra

reduce reuse recycle

Managing Waste Building a Cleaner Future

India generates **160,000+ tons** of municipal waste daily
~90% waste still disposed unscientifically causing pollution & health risks
Rapid urbanization is pushing cities toward waste crisis & landfill overflow

- Poor waste management leads to:**
- Public health hazards
 - Groundwater contamination
 - Air pollution & methane emissions
 - Degraded urban living conditions

OUR SOLUTION

End-to-End Integrated Solid Waste Management
We deliver complete lifecycle solutions for municipal solid waste:

COLLECTION & TRANSPORTATION

- Door-to-door waste collection
- Smart fleet & route optimization
- Mechanized street sweeping

Segregation & Processing

- Material Recovery Facilities (MRF)
- Source segregation implementation
- Recycling & resource recovery

Treatment Technologies

- Composting & bio-methanation
- Waste-to-Energy solutions
- Refuse Derived Fuel (RDF)

Scientific Disposal

- Engineered sanitary landfills
- Legacy waste remediation (Bio-mining)

Integrated systems significantly reduce landfill burden and environmental impact

OUR CAPABILITIES

- 360° municipal waste management execution
- PPP & government tender expertise
- Large-scale manpower deployment
- Advanced equipment & automation
- Sustainable & compliant operations

***"From Collection to Conversion – Delivering Clean Cities,
Sustainable Futures."***

**Partner with us to build Zero-Waste Cities.
Reliable. Scalable. Sustainable.**

create connect grow

Blueprints to Nation-Building

A dynamic force in civil infrastructure, team LARCO specializes in delivering large-scale public infrastructure projects with precision, quality, and reliability. With active participation in government tenders, the organization plays a vital role in shaping modern infrastructure across regions.

Backed by strong technical expertise, disciplined execution, and compliance with statutory standards, projects are delivered on time and built to last.

Core Expertise

- Roads & Highways Development
- Bridges & Flyovers
- Commercial & Institutional Buildings
- Government Infrastructure Projects
- Urban & Rural Development Works
- Industrial Civil Construction

Extended Capabilities

- Water Supply & Distribution Systems
- Sewage Treatment Plants (STP) & Drainage Systems
- Storm Water Management
- Irrigation & Canal Infrastructure
- Smart City Infrastructure Works
- Earthwork & Heavy Excavation
- Structural Rehabilitation & Retrofitting

Government Project Focus [Specialized in executing projects under]

- Central Government Departments
- State Government Authorities
- Municipal Corporations & Local Bodies
- Public Sector Undertakings (PSUs)

Strong understanding of tendering procedures, compliance standards, and project execution protocols ensures seamless delivery.

Not Just Contractors - Infrastructure Partners

- Proven execution capability in public infrastructure
- Strong project management & planning systems
- Compliance with national quality and safety standards
- Skilled workforce and modern machinery
- Transparent processes and ethical practices
- Commitment to timelines and cost efficiency

Certifications

sugarcane

refining processes maximizing output

Chemistry that Refines Every Crystal

We specialize in delivering high-performance sugar boilers & advanced speciality chemicals designed to enhance efficiency, reliability and product quality in sugar and process industries. Our formulations help in effective clarification, scale prevention, corrosion control, overall process improvement.

With a strong commitment to quality and innovation, our solutions are tailored to meet industry-specific challenges while ensuring cost-effectiveness and sustainability. We aim to support our Clients in achieving consistent performance, higher recovery, & reliable operations.

Our Range of Products

Boiler Water Treatment Chemicals

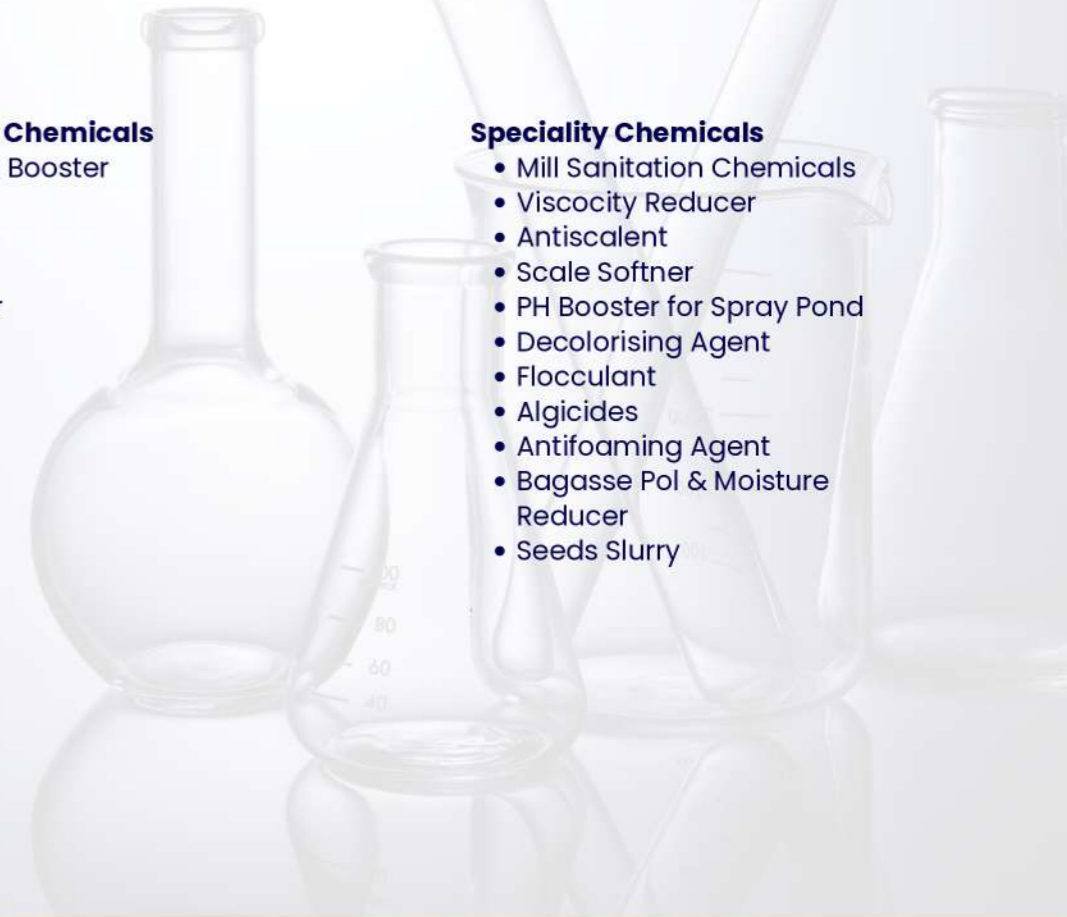

- Alkalinity Builder / PH Booster
- Oxygen Scavenger
- Hardness Reducer
- Sludge Conditioner
- Multipurpose Powder

Industry Sector Served

- Sugar Industry
- Distillery
- Chemical
- Food & Beverages
- Milk Dairy
- Fertilizer
- Paper & Pulp
- Petrochemical
- Textile
- Leather
- Construction
- Steel Plant
- Refineries

Speciality Chemicals

- Mill Sanitation Chemicals
- Viscosity Reducer
- Antiscalant
- Scale Softner
- PH Booster for Spray Pond
- Decolorising Agent
- Flocculant
- Algicides
- Antifoaming Agent
- Bagasse Pol & Moisture Reducer
- Seeds Slurry

"Enhancing Sugar Performance Through Smart Chemistry."
